

Irrigation Designer | Arizona, Colorado, or Texas

0 - 5 years of experience

We are searching for a full-time Irrigation Designer to add to our talented team in Arizona, Colorado, or Texas. For nearly four decades, Norris Design has been dedicated to helping the world grow through the power of placemaking. Partnering with clients around the globe, we are transforming the way people live, work and play. Our integrated approach brings individual disciplines together to design places that get built. Every day, we set out to change the world for the better through thoughtful placemaking. We create communities that move people to create lasting memories. We shape the public realm, activating the imagination — then, we bring places to life with unique identities that live and breathe. Learn more at www.norris-design.com.

Our Baseline

The ideal candidate should be proficient with AutoCAD, Microsoft Word and Microsoft Excel and have a working knowledge in Land FX Irrigation, and Bluebeam Revu/Adobe PDF. The candidate shall be enthusiastic and creative as well as think proactively and work well in a collaborative environment.

- Bachelor's Degree in Landscape Architecture from an accredited program or other relevant technical degree or Associates degree/certification preferred
- Strong background in irrigation design and/or construction with the ability to develop efficient and effective irrigation systems that meets the client's requirements, schedule and budget
- Ability to create detailed drawings that specify a wide range of products available and how they should be installed
- Assist landscape architecture team with research, site analysis and irrigation construction documentation for a wide range of project types
- Irrigation master planning, producing precise and consistent irrigation construction drawings, cost estimating, accurate project detailing, and landscape design assistance as needed
- This is a great opportunity for someone with a passion for irrigation design and a desire to make a positive impact on water conservation efforts
